CONTENTS

Chemicals and Lung Toxicity—To Study the Agent or the Disease

R. Richards. Foreword 3

H. Witschi. Responses of the lung to toxic injury 5

B. E. Miller and G. E. R. Hook. Hypertrophy and hyperplasia of alveolar Type II cells in response to silica and other pulmonary toxicants 15

L. L. Smith, C. P. L. Lewis, I. Wyatt, and G. M. Cohen. The importance of epithelial uptake systems in lung toxicity 25

G. M. Cohen. Pulmonary metabolism of foreign compounds: its role in metabolic activation ... 31

A. M. Scott, G. M. Powell, D. G. Upshall, and C. G. Curtis. Pulmonary toxicity of thioureas in the rat 43

V. I. C. Oreffo, A. Morgan, and R. J. Richards. Isolation of Clara cells from the mouse lung .. 51

T. W. Evans, R. J. McAnulty, D. F. Rogers, K. F. Chung, P. J. Barnes, and G. J. Laurent. Bleomycin-induced lung unjury in the rat: effects of the platelet-activating factor (PAF) receptor antagonist BN 52021 and platelet depletion 65

L. Bingle, T. B. Bull, B. Fox, A. Guz, R. J. Richards, and T. D. Tetley. Type II pneumocytes in mixed cell culture of human lung: a light and electron microscopic study ... 71

R. F. R. Brown, T. C. Marrs, P. Rice, and L. C. Masek. The histopathology of rat lung following exposure to zinc oxide/hexachloroethane smoke or instillation with zinc chloride followed by treatment with 70% oxygen 81

J. A. J. H. Critchley, J. M. Beeley, R. J. Clark, M. Summerfield. S. Bell, M. S. Spurlock, J. A. G. Edginton, and J. D. Buchanan. Evaluation of *N*-acetylcysteine and methylprednisolone as therapies for oxygen and acrolein-induced lung damage 89

R. D. Verschoyle and D. Dinsdale. Protection against chemical-induced lung injury by inhibition of pulmonary cytochrome P-450 95

E. A. Sara, R. C. Brown, C. E. Evans, J. A. Hoskins, and C. F. Simpson. Interaction of amosite and surface-modified amosite with a V79-4 (Chinese hamster lung) cell line 101

S. B. Hornby and J. P. Kellington. DNA synthesis in alveolar macrophages and other changes in lavaged cells following exposure of CBA/H mice to cigarette smoke 107

A. Adam, L. L. Smith, and G. M. Cohen. An assessment of the role of redox cycling in mediating the toxicity of paraquat and nitrofurantoin 113

R. J. Richards, V. I. C. Oreffo, and R. W. Lewis. Clara cell cultures from the mouse and their reaction to bronchiolar toxins 119

S. J. Hardwick, A. Adam, L. L. Smith, and G. M. Cohen. A novel lung slice system with compromised antioxidant defenses 129

S. F. Smith, T. D. Tetley, A. Guz, and R. J. Flower. Detection of lipocortin 1 in human lung lavage fluid: lipocortin degradation as a possible proteolytic mechanism in the control of inflammatory mediators and inflammation 135

K. Hellstern, C. G. Curtis, D. G. Upshall, and G. M. Powell. The effects of drugs, other foreign compounds, and cigarette smoke on the synthesis of protein by lung slices 145

D. R. Springall, J. A. G. Edginton, P. N. Price, D. W. Swanston, C. Noel, S. R. Bloom, and J. M. Polak. Acrolein depletes the neuropeptide CGRP and substance P in sensory nerves in rat respiratory tract 151

Toxicologic Pathology of the Upper Respiratory System

L. C. Uraih, K. T. Morgan, and R. R. Maronpot. Foreword 161

M. A. Dorato. Overview of inhalation toxicology 163

G. K. Reznik. Comparative anatomy, physiology, and function of the upper respiratory tract ... 171

M. S. Bogdanffy. Biotransformation enzymes in the rodent nasal mucosa: the value of a histochemical approach 177

L. C. Uraih and R. R. Maronpot. Normal histology of the nasal cavity and application of special techniques 187

K. T. Morgan and T. M. Monticello. Airflow, gas deposition, and lesion distribution in the nasal passages 209

D. K. Heffner. Classification of human upper respiratory tract tumors 219

J. R. Harkema. Comparative pathology of the nasal mucosa in laboratory animals exposed to inhaled irritants 231

J. I. Everitt and C. B. Richter. Infectious diseases of the upper respiratory tract: implications for toxicology studies 239

T. M. Monticello, K. T. Morgan, and L. Uraih. Nonneoplastic nasal lesions in rats and mice .. 249

B. A. Gaskell. Nonneoplastic changes in the olfactory epithelium—experimental studies 275

H. R. Brown. Neoplastic and potentially preneoplastic changes in the upper respiratory tract of rats and mice 291

V. J. Feron, R. A. Woutersen, A. van Garderen-Hoetmer, and H. C. Dreef-van der Meulen. Upper respiratory tract tumors in Cpb:WU (Wistar random) rats 305

P. Nettesheim, A. M. Jetten, Y. Inayama, A. R. Brody, M. A. George, L. B. Gilmore, T. Gray, and G. E. R. Hook. Pathways of differentiation of airway epithelial cells 317

R. R. Maronpot. Pathology Working Group review of selected upper respiratory tract lesions in rats and mice 331
